

Moving software vendor comparison table

Note: All software information has been gathered from vendor websites, user interviews, and online reviews.

- Feature/functionality fully available
- Feature/functionality limited or somewhat available
- Feature/functionality not available
- Not enough data to provide accurate information..

	Configurability + implementation	Ease of use	Features	Ongoing support	Reporting	Development and Innovation	Cloud-based	Mobile app
supermove	 A highly configurable system that can grow with your business.	 Everyone can use the software, not just techies.	 True all-in-one software with a complete feature set.	 Strong post-sale support.	 Robust reporting functionality.	 Adds new features based on customer feedback	 Cloud-based software that can be accessed from anywhere.	 Easy to use crew app.
SmartMoving	 An out-of-the-box solution that lacks customization.	 Everyone can use the software, not just techies.	 Very strong CRM, but limited functionality elsewhere.	 A small team makes it challenging to provide hands-on support.	 Great sales & marketing reporting, but it only generates reports for 1 month's worth of data.	 A team that's from the moving industry and has first-hand experience with moving.	 Cloud-based software that can be accessed from anywhere.	 There is a crew app, but according to reviews, it can be difficult to use.
MOVEGISTICS BY NETENSITY	 Fully configurable.	 Users report a longer learning curve.	 Feature-rich with a powerful visual estimator and lead tool.	 Users report slow email support.	 Good reporting functionality.	 Not enough data available.	 Cloud-based software that can be accessed from anywhere.	 Inventory app available.
MovePro	 Rigid system– not configurable.	 Complex software. Less tech-savvy folks might get lost.	 Feature-rich software.	 Strong post-sale support.	 Not enough data available.	 Extra charge for development work.	 Cloud-based software that can be accessed from anywhere.	 Optimized for mobile (not a native mobile app).
Mr. Mover software "Making Moving Simple"	 Not enough data available.	 Complex, and the UI is outdated compared to more modern moving software.	 Feature-rich software.	 Not enough data available.	 Not enough data available.	 They were sold to Move HQ, and the software is not currently being updated or maintained.	 Server-based software. You can't access the software from anywhere with any device.	 No mobile app.
elromco SOFTWARE SOLUTIONS	 Users report that the initial setup can be difficult.	 Not enough data available.	 Feature-rich, and also offers services like websites and PPC for movers.	 Strong post-sale support	 Not enough data available.	 Not enough data available.	 Cloud-based software that can be accessed from anywhere.	 Some users have reported that it's difficult to use the software on their phone.
CompuMove SYSTEMS CORPORATION	 A complex system makes onboarding and training difficult.	 Outdated user interface which can be slow and complicated.	 Feature-rich software.	 Email and phone support.	 Limited reporting features with no data visualization.	 Small development team, so regular product updates are lacking.	 Cloud-based software that can be accessed from anywhere.	 Mobile optimized.
